

# PowerCheck™

get more from the tour!

Add value to your guard tours with Morse Watchmans' PowerCheck. Designed to help prevent liability and costly losses from vandalism, theft, espionage and accidents, PowerCheck gives your security officers a tool to document incidents and risky conditions. Officers can input user-programmable codes on the convenient keypad as they make their rounds, saving time and reducing paperwork. Auto Pilot guides officers from station to station, while Random Tour allows them to go to stations in any order they prefer. All these features help you get more value from your investment in manpower.

WATCHMANS**

### The all-in-one, hand-held data recorder

Sleek, lightweight design makes PowerCheck easy for officers to carry and handle. The recorder is simple to use, fully self-contained and extremely durable. Both shock and water resistant, it will function in temperatures ranging from -40° to 140°. A rechargeable battery is included with every PowerCheck.

### Stations that can't be beat

Our checkpoint stations are as rugged and durable as the PowerCheck recorder. Unlike many other systems, these will withstand rough usage and won't fade in the sun or fail in rainy conditions. Even if the surface has been vandalized, the stations will still function. And we stand behind this quality product with a lifetime guarantee.

### Perfect for:

- Correctional facilities
- Healthcare facilities
- Hospitality industries
- Contract security companies
- Multifamily buildings
- Corporate buildings
- Educational institutions

### Tour-Pro software delivers meaningful data

Download tour information, program your PowerCheck recorders, generate detailed management reports and manage files with Tour-Pro guard tour software. You can even customize reports by time, day, week and month for each transaction. Connect your PowerCheck units directly to your PC, or upgrade to an IP connection – enabling you to control and administer the system via LAN.

### More value from Morse Watchmans

Guard tours are more effective with PowerCheck. Find out more about this unique system and how it can deliver value to your organization. The most durable, functional guard tour system available, PowerCheck is backed by Morse Watchmans' industry-leading warranties and unlimited customer service.
